THE EGYPTIAN MATERIALS RESEARCH SOCIETY

FORMER: THE EGYPTIAN SOCIETY OF SOLID STATE SCIENCE

Eg-MRS 2004

THE XXIV CONFERENCE
 ON
**Solid State Physics and
 Materials Science**
 &
WORKSHOP
 ON
**Photonic Materials and
 Optoelectronic Devices**

22-26 February 2004
 Safaga, Red Sea, Egypt

**Call For
 Abstracts and Registration**

CONFERENCE

The aim of the conference is to provide a forum for exchange of knowledge in a high interdisciplinary field and to bring together scientists working in academic and applied research in the fields of solid state physics and materials science for constructive interactions.

The topics to be covered are:

- * Semiconductor Physics and Devices.
- * Metal Physics.
- * Superconductivity.
- * Thin films.
- * Optoelectronic Materials.
- * Solar Energy Materials and Devices.
- * Magnetism and Magneto-optics.
- * Crystallography and Amorphography.
- * Polymer Physics.
- * Spectroscopy and Optical Properties.
- * Surface Physics.

WORKSHOP

Photonics and Optoelectronics have become dominant research fields in the last few decades. Their impact on basic as well as commercial areas is insurmountable. The purpose of this workshop is to appreciate and raise the awareness of these fields. This will be carried out by International lecturers and National Scientists and Engineers with the aim to bridge the gap between academic and industrial interests.

LANGUAGE

The conference and workshop language is English.

LOCATION

Safaga, Red Sea, Egypt.

ABSTRACTS

- An abstract (about 150 words) on A4 page must be submitted by the end of January 2004. Accepted abstracts will be published in the conference booklet.
- Papers can be published in "The Egyptian Journal of Solids" after being refereed according to the regular procedure of the Journal.
